

Hackathon Open Data x Housing

07.06.2022

Hackathon Open Data x Housing

This event in collaboration with the **Information and Press Service (SIP)**, the **Housing Observatory** and **GovTech Lab** is a one-day collaborative hackathon.

The goal of the Hackathon Open Data x Housing is to foster multi-disciplinary collaboration in order to generate ideas for innovative tools using and enhancing open data from the Housing Observatory and related fields (e.g. transport, environment, energy, mapping).

This event is open to any participant with an interest in **Open Data** and housing data. Possible profiles: data scientist, software developer, UX designer, project manager, business analyst, researcher, data journalist, etc.

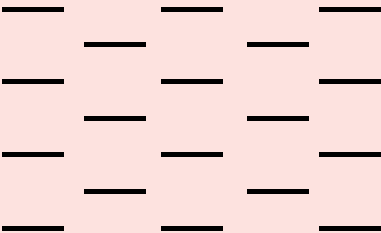

The number of participants is limited, don't hesitate to register as soon as possible!

Registration

Participation is free, please fill out **[this form](#)** to register.

Date : **Tuesday 7 June 2022**

Location : **GovTech Lab**
560 Rue de Neudorf
2220 Luxembourg
